

ABBHI KUMAR SINGH

Computer Science Engineer • AI/ML • Android • Cloud & Data

+91-9632070071 | singhabbhi08@gmail.com | [linkedin.com/in/abbhi-kumar-singh](https://www.linkedin.com/in/abbhi-kumar-singh) | Bengaluru, India

PROFESSIONAL SUMMARY

CS&E graduate (May 2026) with expertise in AI/ML, Android development, data analysis, and cloud infrastructure. Built a real-time pose detection model achieving 98% accuracy, a production offline-first Android app, and data dashboards spanning the full analytics lifecycle. Proficient in Python, Java, React.js, SQL. AWS Solutions Architect certified. Proven leader as football team captain and inter-college hackathon finalist.

TECHNICAL SKILLS

Languages & Scripting: Python (primary), Java, C, SQL

AI / ML: Supervised Learning, Random Forest, Pose Estimation, Computer Vision, TensorFlow Lite, Generative AI

Frameworks & Libraries: MediaPipe, OpenCV, React.js, Next.js, Android SDK, Jetpack Compose, Room DB, ZXing/ML Kit

Cloud & AWS: EC2, RDS, Lambda, API Gateway, S3, VPCs — AWS Solutions Architect Certified

Data & Visualization: Tableau, Power BI, Excel (Pivot Tables, VLOOKUP, Charts), Pandas, NumPy, Matplotlib, Scikit-learn

QA & Process: Deviation Tracking, Trend Analysis, RCA, Incident Documentation, REST API Integration

Methodologies: Agile/Scrum, Technical Documentation, Requirement Gathering, Structured QA

WORK EXPERIENCE

Android Application Developer — **MindMatrix**

Feb 2026 – May 2026 | Bengaluru, India

- Developed Jenu-Gumpu: offline-first Android app using Jetpack Compose, Room DB, TensorFlow Lite (honey grading), and ZXing/ML Kit for QR-based batch traceability — for rural honey collectives.
- Integrated REST APIs; monitored data consistency, response times, and identified latency bottlenecks. Practised structured problem identification, corrective action planning, and sprint-level documentation across SDLC.

Data Analyst Job Simulation — **Deloitte** (Forage)

Feb 2026

- Built Tableau dashboards to visualize operational KPIs; produced structured Excel reports tracking patterns and deviations — mapping to SOC QA performance reporting workflows.
- Delivered stakeholder-ready insights: data ingestion → cleaning → analysis → RCA → recommendations, mirroring SOC incident documentation and full analytics lifecycle.

KEY PROJECTS

ZenPose — AI/ML Yoga Pose Detection & Correction [GitHub](#) | [Live](#) Python • MediaPipe • OpenCV • Random Forest • Next.js

- Real-time pose detection (MediaPipe + Random Forest); 98% accuracy on Surya Namaskara with sub-100ms latency, live audio-visual corrective feedback via Next.js, and anomaly detection on joint-angle data streams.
- Engineered joint-angle deviation pipeline; reduced false positives through structured iterative performance analysis — mirrors SRE detect → analyse → alert → remediate pattern.

Blaugrana — Personal Portfolio Website [GitHub](#) | [Live](#) React.js • CSS3 • GitHub Pages

- Responsive portfolio website showcasing projects, skills, and achievements with cross-device compatibility; deployed on GitHub Pages with clean routing and smooth navigation.

Jenu-Gumpu — Offline-First Android App (Rural Honey Collective Management) [GitHub](#) Android • Jetpack Compose • Room DB • TensorFlow Lite • ZXing/ML Kit

- Offline-first Android app with Room DB + Jetpack Compose for rural honey collective management; on-device TensorFlow Lite honey grading and ZXing/ML Kit QR-based batch traceability.
- Full lifecycle from requirement analysis to offline testing and structured QA deployment at MindMatrix.

EDUCATION

B.E. in Computer Science & Engineering — Atria Institute of Technology (VTU), Bangalore CGPA: 8.31 / 10 | May 2026

CERTIFICATIONS

- | | |
|---|----------|
| AWS Solutions Architect — Infosys Springboard | May 2025 |
| Applied Generative AI — Infosys Springboard | Oct 2024 |
| Introduction to Data Science — Infosys Springboard | Jun 2025 |
| Agile Scrum in Practice — Infosys Springboard | Sep 2025 |
| Basics of Python & Java Concepts — Infosys Springboard | Feb 2024 |

AWARDS & LEADERSHIP

- Top-7 Finish in an inter-college hackathon for innovation and problem-solving.
- Captain (2025):** Led football team to VTU Central Division Tournament runners-up.
- Vice-Captain (2024):** Won the VTU Central Division Championship.
- Core Organizer — college-level technical events; managed logistics and cross-team coordination.
